

ALTEON®

design is instrumental

Innovative design playing out in an essential combination of strength and beauty—that's the Alteon® Acetabular Cup System. Featuring TAC™ porous technology, the Alteon Cup strikes the optimal balance between material strength, pore size and porosity.

Combined with Alteon XLE Liners, the system provides multiple cup implant configurations and bearing options, certain to compliment your surgical ensemble.

Features include:

- Asymmetric Porous Coating
- Vitamin E Enhanced Liners
- Optimized Head/Cup Aspect Ratio
- Three-part Locking Mechanism
