# Our Commitment to American Craftsmanship

## Our Story

Admiral Furniture's rich history began in the mid 1950's as a small company in South Florida. The company was refreshed in 2004 when the Villella Family decided to put their combined expertise and passion for handcrafted aluminum furniture to work. But they were not simply focused on delivering a high-end final product. They made a promise to the process: to support American craftsmanship by ensuring that, from frames to fabrics and slings to straps, every element of their products is 100 percent manufactured in the U.S.A., using only American-made raw materials and labor. Their talents and pride in their promise to be an all-American, commercial-quality manufacturer of designer aluminum furniture has grown into an organization consisting of multiple companies employing over 60 people and a manufacturing facility of over 50,000 square feet. Today we partner with the finest companies in the hospitality, club, and multi-family industries as well as other properties that have commercial furniture applications.

## Our Mission

Our greatest goal—and source of pride—is to ensure that our commitment to American craftsmanship is reflected and respected in each of our pieces. By providing inspired designs that fluidly function in multipurpose places, we seek to create durable, commercial-quality furnishings that are versatile and affordable.
